EDUCATION

Bachelor of Engineering - Electronics and Telecommunication

Don Bosco College of Engineering

June 2019 - June 2023

Fatorda, Goa

EXPERIENCE

Junior Software Engineer | UI/UX & Frontend Developer

Online Productivity Solutions Pvt. Ltd.

October 2023 - Present

Verna, Goa

- Developed and enhanced responsive web interfaces using React.js and Tailwind CSS, contributing to UI design decisions and Figma-based layout expansions.
- Designed and expanded dashboards and admin panels to support evolving content types and user workflows.
- Integrated REST APIs for dynamic data rendering across educational and healthcare platforms.
- Collaborated in sprint planning, code reviews, and cross-functional development to maintain UI consistency and performance standards.

Front-end Developer Intern

Tentwnty Digital LLP

August 2022 - October 2022

Porvorim, Goa

- Built and hosted a responsive website using HTML, CSS, and JavaScript.

PROJECTS

Advanced Review Practice - SLP Platform | Figma

November 2025 - Present

Educational platform supporting tests, tutorials, flashcards, and multimedia learning resources.

- Designed new page layouts to accommodate additional content such as videos, podcasts, and study materials.
- Created structured dashboard and content pages based on evolving client requirements.
- Maintained visual consistency with the existing platform design system.

ICD (Intro to Communicative Disorders) | Figma

November 2025 - Present

Educational resource platform for speech and language disorders.

- Designed and expanded Admin and Client panel layouts to support additional educational content and workflows.
- Created interactive Figma prototypes to validate new feature flows prior to development and stakeholder approval.
- Improved usability and content organization for a structured learning platform.

Roycares | JavaScript, React, Tailwind CSS, Git

November 2023 - Present

Lifestyle management and recovery platform with structured progress tracking and therapy modules.

- Designed and enhanced responsive pages and reusable components using React.js and Tailwind CSS.
- Developed dynamic forms and interactive modules for structured user workflows.
- Collaborated with back-end and QA teams to optimize API integration, performance, and UI consistency.
- Maintained version control using Git to ensure stable feature releases.
